

Here is a list of many of the codes which would be found on a Broadcast Sheet. This sheet is what the assembly line workers used to build the car. A copy of this sheet was usually tucked in the car upon completion: the most common place to find it is underneath the back seat (wedged between the springs and the burlap), but they have also been found under the carpeting, or taped to the top of the cardboard glovebox (remove the glovebox from the dash to check.)

If you find any more hiding places, please let us know!

Code	Application	Option
002	64 Barracuda	225 cid Engine
003	66 Barracuda	Tires - 6.50x13 wsw
003	65 Barracuda	Tires - 6.50x13 wsw
