SERVICE DEPARTMENT... CHRYSLER-PLYMOUTH DIVISION  
CHRYSLER MOTORS CORPORATION

TECHNICAL INFORMATION ON ☒ IMPERIAL ☒ CHRYSLER ☒ PLYMOUTH ☐ VALIANT

November 21, 1962

No. 63-24

Spark plugs with attached gaskets have been incorporated in production in 1963 Imperial, Chrysler and Plymouth V-8 engines. The attached gasket will facilitate spark plug installation since the gasket cannot fall off the plug.

Spark plugs with attached gaskets may be removed and installed four or five times without affecting the sealing ability of the gasket. Therefore, it is not normally necessary to use a new gasket when these spark plugs are re-installed after removal for cleaning or inspection.

Spark plug types J12Y, J9Y and XJ9Y have been released with attached gaskets. These spark plugs are used in the following models:

Model	Engine	Spark Plug Type	MoPar Part Number
Imperial (All Models)	(Std.) 413 Cu. In.	J12Y	1889524
Chrysler Newport	(Std.) 361 Cu. In.	J12Y	1889524
Chrysler Newport	(Opt. Police) 383 Cu. In.	J9Y	2098334
Chrysler Newport	(Opt. Police) 413 Cu. In.	J9Y	2098334
Chrysler 300	(Std.) 383 Cu. In.	J12Y	1889524
Chrysler 300	(Opt.) 413 Cu. In.	J12Y	1889524
Chrysler 300	(Opt. Hi-Perf.) 413 Cu. In.	J9Y	2098334
Chrysler 300J	(Std.) 413 Cu. In.	XJ9Y (Resistor)	2098376
Chrysler New York	(Std.) 413 Cu. In.	J12Y	1889524
Plymouth (V-8 Models)	(Std.) 318 Cu. In.	J12Y	1889524
Plymouth (V-8 Models)	(Opt.) 361 Cu. In.	J12Y]	1889524
Plymouth (V-8 Models)	(Opt. Hi-Perf. Police Pkg.) 383 Cu. In.	J9Y	2098334
Plymouth (V-8 Models)	(Opt. Super Stock) 426 Cu. In.	J9Y	2098334
